Product change notification number:
PCN_20261015_CANlink mobile 3600 Var Türkiye SIM card supplier change **Date:** 15.10.2026

Title: CANlink mobile 3600 Var Türkiye SIM card supplier change

Product identification: See material number on type label.

Reason for change:

☐ Design	☐ Quality/Reliability	☐ Packaging
☐ Manufacturing Location	☐ Change of certification	☐ Labeling
☐ Expansion of product family	☐ Production Process	☒ Material
☐ Logistics	☐ Software update	☐ End of Life

Change Description:
Proemion is changing the supplier of the SIM cards used in the Türkiye variants of the CANlink mobile 3600 (see appendix). The network operator remains Turkcell, so network coverage and connectivity within Türkiye are unchanged.

Devices are shipped with the correct configuration. No changes to the device or its configuration are required.

Devices already in the field are not affected and continue to operate without any changes.

The activation process remains unchanged: devices are activated via the DataPlatform as before. Existing hosting tariffs remain valid.

Identification method to distinguish the change:
Product Change Index printed on type label, see appendix.

Qualifiable impact on quality and reliability:
No impact on form, function and fit.

[1] The proposed first ship date is the forecasted date that a customer may expect to receive changed products. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed products on this date, Proemion will continue to ship pre-changed products until a time in which the inventory has been depleted. This may result in pre-changed products being shipped to customers after this forecasted date.
