Change Description:

Due to logistical reasons, the packaging of Display 1001 will be changed. The color of the carton is changing from white to brown. This change affects the outer packaging and the insert.

Furthermore the contrast of the display is improved by adjusting the voltage divider of the contrast voltage. Due to this change the E1 certification was updated.

Identification method to distinguish the change:

The corresponding color of the packaging is visible without any aids.

Revision printed on type label, see appendix.

Qualifiable impact on quality and reliability:

No impact on form and fit.

¹ The proposed first ship date is the forecasted date that a customer may expect to receive changed products. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed products on this date, Proemion will continue to ship pre-changed products until a time in which the inventory has been depleted. This may result in pre-changed products being shipped to customers after this forecasted date.
