

Product change notification number:

PCN_20260805A_CANLink mobile 3600 Update Firmware v4.3.0

Date: 05.08.2026

Title: CANLink mobile 3600 Update Firmware v4.3.0

Product identification: See material number on type label.

Reason for change:

☐ Design	☐ Quality/Reliability	☐ Packaging
☐ Manufacturing Location	☒ Change of certification	☒ Labeling
☐ Expansion of product family	☐ Production Process	☐ Material
☐ Logistics	☒ Software update	☐ End of Life

Change Description:

- To enhance the device functionalities the CANLink mobile 3600 devices will be delivered with the new firmware version 4.3.0. See the release notes for more information on the new firmware. The new firmware version including the release notes is available for download in our [Download Center](#)
- The new firmware version is already available in our DataPlatform [Firmware Management](#). Please use this convenient feature to update the devices in your fleet. Please consider our [Safe Remote Updates Guideline](#) when planning the update campaign.
- Proemion urgently recommends that you always update your devices to the latest released firmware version. Failure to update firmware may result in elevated errors, higher data consumption or even loss of connectivity for which Proemion is not obligated to provide technical support or warranty. If you have any problems or questions regarding the update, please contact our support team at <https://support.proemion.com>.
- For the model CANLink mobile 3617 the Radio Type Approval for Costa Rica was added to the Type- and Package-Label, see example in the appendix.

Identification method to distinguish the change:

Product Change Index printed on type label, see appendix. Firmware revision could be read out electronically.

Qualifiable impact on quality and reliability:

No impact on form and fit. Enhanced functionality.

Samples: ☐ available ☐ will be available soon ☒ not applicable

Proposed first ship date¹:	10.08.2026
Last time order for devices:	Not applicable
Last time ship for devices:	Not applicable
End of Repair-Service for devices:	Not applicable
End of Support for devices:	Not applicable

Proemion contact: sales-team@proemion.com

¹ The proposed first ship date is the forecasted date that a customer may expect to receive changed products. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed products on this date, Proemion will continue to ship pre-changed products until a time in which the inventory has been depleted. This may result in pre-changed products being shipped to customers after this forecasted date.
